

Description

This application provides the supplier the possibility to post empties movements between supplier and BSH.

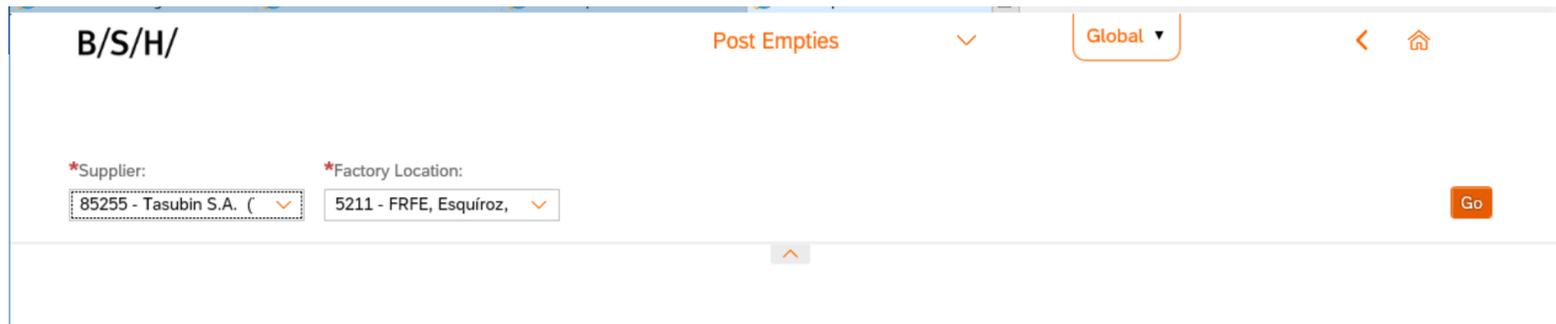

Transaction in Old Supplier Portal

In previous Portal the equivalent transactions were called “Empties movements” and “Comparison of empties”.

Features

How to update my stock level for a specific material, by updating both the quantity received and the quantity issued?

This is done via the **Post Empties** application. You would first select the supplier and factory location of interest, then click 'Go'.

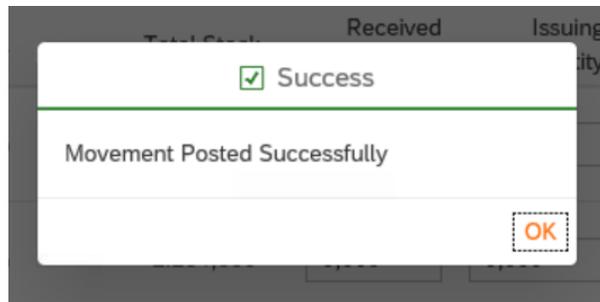

The screenshot shows the B/S/H/ 'Post Empties' application interface. At the top left is the B/S/H/ logo. The page title is 'Post Empties' with a dropdown arrow. To the right is a 'Global' dropdown menu and navigation icons (back and home). Below the header, there are two dropdown menus: '*Supplier:' with the selected value '85255 - Tasubin S.A. (' and '*Factory Location:' with the selected value '5211 - FRFE, Esquíroz, '. A 'Go' button is located to the right of the second dropdown menu. A small upward arrow icon is centered below the dropdown menus.

This would produce a table containing all materials and the stock quantity of each material for the chosen supplier & location. In order to update the stock level, you would edit the Received Quantity and/or the Issuing Quantity of the chosen material, entering a delivery note and clicking 'Post'. You would then see a success pop-up message.

Enter Delivery Note Clear Fields

Supplier	Storage Location	Materials	Material Description	S1	Total Stock	Received Quantity	Issuing Quantity	S2	New Stock	Unit	Factory Location
85255	9010	9000025826	CONTAINER BSH-FEK (1,20x1 m)		-1.871,000	<input type="text" value="10,000"/>	<input type="text" value="1,000"/>		-1.862,000	ST	5211

Post

How to print an empties overview/empties movement?

This is done via the **Empties Management** application, where you would choose either empties overview or movement on the drop down list. You would then fill in the supplier, factory location, storage location and press 'Go'. This will lead to the chosen document being downloaded, where you can save or print the document.

The screenshot shows the B/S/H/ Empties Management application interface. At the top left is the logo 'B/S/H/'. To its right are the text 'Post Empties' and a dropdown menu currently showing 'Global'. Further right are navigation icons: a left arrow and a home icon. Below this header is a form with four main sections:

- *Please select:** A dropdown menu with 'Empties Overview' selected. Below it, a list shows 'Empties Movements' and 'Empties Overview'.
- *Supplier:** A dropdown menu with '85255 - Tasubin S.A. (Tasubinsa)' selected.
- *Factory Location:** A dropdown menu with '5211 - FRFE, Esquíroz, ES' selected.
- *Storage Location:** A dropdown menu with '9010 - Empties' selected.

Below these sections is a 'Material Document:' field consisting of two input boxes separated by the word 'to'. To the right of this field is an orange 'Go' button.
