

Description

With this application the supplier is able to maintain his data and display the contact persons directly in our System.

Transaction in Old Supplier Portal

In old Supplier Portal the equivalent transaction was called “Company Data” and “Product Categories”.

Features

How to change company address, due to e.g. moving to another location?

You would enter the company data and contacts application, clicking edit in the bottom right corner, changing the address and clicking save. This will update to the new address and send it over to BSH for approval.

B/S/H/ Company Data & Contacts Global

TASUBIN, S.A.

How to add new products to my offerings?

The user would scroll down to product categories within the company data & contacts application and add a new product(s) by clicking the Add Product button. A pop up will appear, select from the available products and then submit to add the product.

The screenshot displays the B/S/H/ application interface. At the top left is the logo 'B/S/H/'. To its right is the text 'Company Data & Contacts' with a dropdown arrow, followed by 'Global' with another dropdown arrow. Further right are navigation icons: a left arrow and a home icon. Below the logo is a circular icon with a house and the text 'TASUBIN, S.A.'. A horizontal menu below this contains three items: 'ADDRESS' (highlighted with an orange underline), 'PRODUCT CATEGORIES', and 'EMPLOYEE DETAILS'. Below the menu is a table with two columns: 'Category Name' and 'Status'. The first row contains 'ES1' and 'A31257868', with a trash icon to the right. Below the table is the heading 'PRODUCT CATEGORIES'. At the top right of this section are three buttons: '+ Add Product', '✓ Submit', and '⌛ Reset'. Below the buttons is a table with two columns: 'Category Name' and 'Status'. Below the table is the text 'Click on Add to add a Product Category'.
